FULL STACK DEVELOPER

9+ years of hands-on experience in building innovative and scalable software products.

Experienced software developer and full-stack web developer with a strong track record in leading web projects using agile methodologies. Proficient in deploying projects to AWS, Digital Ocean, Cloudflare, and Windows servers. Adept at leveraging a diverse range of programming languages, frameworks, and edge-cutting technologies to deliver high-quality solutions.

Highlights of Expertise

- LAMP Stack Development
- Requirement Gathering & Analysis
- Problem-Solving and Algorithms
- Database Management
- Web Application Security
- DevOps practices (CI/CD pipelines)
- Version Control Tools
- AWS, Digital Ocean, Cloudflare
- Communication and Teamwork
- External APIs Integrations

Technical Skills

Front-End Technologies: JavaScript, Vue.js, Livewire, Ajax, jQuery, JSON, Bootstrap, HTML, CSS, Tailwind CSS
Back-End Technologies: PHP, Laravel, PEST, PHPUnit, C#, Asp.Net MVC, PostgreSQL, MySQL
Tools & Methods: Git, Docker, Kubernetes, Jenkins, Jira, Trello, WordPress CMS, Restful APIs, SEO
Professional Skills: Remote Pair-Programming, Teamwork, Mentoring, Agile, Scrum
Cloud Servers & OS: Apache, Nginx, AWS, Digital Ocean, Cloudflare, Linux, Windows Server

Experience

FULL STACK DEVELOPER
PRIMITIVE GLOBAL TECHNOLOGIES
Maryland, United States
07, 2023 – Current

- Utilizing LAMP stack, PHP Laravel, and RESTful APIs to develop and maintain applications, optimizing existing ones for evolving requirements and client requirements.
- Conducting code reviews and implementing technology updates to improve application security and performance.
- Achieved a 50% reduction in server costs by proposing and implementing cost-effective solutions.
- Successfully addressed critical security threats and vulnerabilities, preventing server downtime and unauthorized changes.
- Led efforts to enhance and expand application features, prioritizing performance and security.
- Achieved a 100% reduction in query load times, significantly raising application performance.
- Spearheaded a database redesign to enhance security, performance, and adaptablity for future updates.
- Plan the integration of cutting-edge technologies (NLP, NLG, TensorFlow) into existing applications.

FULL STACK DEVELOPER
<u>INTELECUTAL APPLICATION AND PRODUCTS.</u>
KABUL, Afghanistan
03, 2020 – 05, 2023

- Led the development of complex web applications using PHP and Laravel, ensuring high-quality code and adherence to project timelines.
- Developed and maintained responsive front-end interfaces using HTML, CSS, and JavaScript frameworks, guaranteeing optimal user experience across various devices.
- Developed RESTful APIs, facilitating seamless communication between front-end and back-end systems.
- Integrated and managed MySQL databases to store and retrieve data efficiently, and implemented database optimizations for improved performance.
- Participated in Agile/Scrum development processes, contributing to daily stand-ups, sprint planning, and code revision for efficient project management.
- Deployed over 5 web applications using version control systems (e.g., Git) and cloud servers like AWS, and Digital Ocean, to gain smooth and efficient deployment processes.

FULL STACK DEVELOPER
<u>NETLINKS</u>
Kabul, Afghanistan
08, 2017 – 03, 2020

- Collaborated with cross-functional teams to gather project requirements, translating them into technical specifications and actionable development plans.
- Developed dynamic and responsive user interfaces using HTML, CSS, JavaScript, and front-end frameworks.
- Implemented back-end functionality using PHP Laravel, and C# ASP.NET including database management and server-side logic.
- Created RESTful APIs to enable seamless communication between front-end and back-end components, facilitating data exchange and interactions.
- Integrated third-party APIs and services like Stripe, Firebase, Pusher, and Socket to strengthen application capabilities and user experiences.
- Participated in troubleshooting and resolving technical issues across the application stack, certifying smooth operation and timely resolutions.

WEB DEVELOPER
<u>RAHIM GARDEZI</u>
Kabul, Afghanistan
08, 2009 – 03, 2014

- Worked jointly with the development team to create and practice user-friendly web applications and sites, adhering to coding standards and best practices.
- Assisted in front-end development tasks, including HTML, CSS, and JavaScript coding, better responsiveness, and visually appealing designs.
- Troubleshooted and debugged issues across browsers and devices, and upgraded user experience and site performance.

Education & Certificates

BANGALORE UNIVERSITY – India 2014 TO 2017
BACHELOR OF COMPUTER APPLICATIONS (BCA)

APTECH COMPUTER EDUCATIONS - 2017
Diploma, .NET Professional course

Projects

GLIST: Beauty Professionals list services as freelancers and Client search & and book services based on availability, price, locations, etc.

- **Built with:** (PHP, Laravel, Livewire, Stripe, Javascript, Vue.js, Firebase, Cron jobs, Restful APIs)

BULBUL AUDIO BOOKS: Bulbul is the first and only mobile application built to deliver premium-quality audiobooks for its users for Dari and Pashto speakers.

- **Built with:** (PHP, Laravel, Inertia.js, Vue.js, Firebase, Restful APIs)

ARCS IMS: Strengthening information management system funded by IFRC

MOEC SEPP: Socio-economic provincial profiles digitalization system funded by TetraTech

WASALPAY: Afghanistan's largest payment solution, integrated with 5 telecoms and 20+ banks.

Certificates & Awards

- Master trainer - TOT program organized by GIZ
- Best outgoing student of the year
- 2021 Employee of the Year Award from IAP
